THE HOLIDAY ADVERTISING.

Merchants Should Get Down to Business—Buyers Are Looking in These Columns.

Every merchant in Daytona wants to do a good business between now and January 1.

He wants to do a good business all the time, but he particularly desires to do it now to make up for what he did not do during the past three months, and to help make a good showing for the year 1905.

Other things being equal there is only one way for him to get the business, and that is GET IT AFTER IT.

If he does not go after the business his competitor will do it, and it is unnecessary to add that, under these circumstances, his competitor will get it.

Now, it is impossible for a merchant to get out and see, personally, every one of the hundreds of customers whom he wants to do business with him, and there is, consequently, but ONE WAY TO REACH THEM, and that is THROUGH THE COLUMNS OF The Daily News.

Every merchant who expects to do a good holiday trade must make an appeal to the public for it or his competitor will get the business.

The buying public has come to be very discriminative in its tastes, and it refuses to do business with a merchant who does not have enterprise enough to ask for it. The public reasons that if the merchant hasn't enough enterprise to advertise, he hasn't enough enterprise to keep the kind of a stock that the customer wants, and, consequently, the customer "passes him up" for his more enterprising competitor.

People are looking to the columns of The Daily News for their HOLIDAY SUGGESTIONS, and now is the time for the merchant to tell them exactly what he has to offer.

Don't wait until people begin to buy of some one else—INVITE THEM INTO YOUR STORE NOW, and get first chance to show them what you have.

The Daily News' columns are at your disposal for this purpose, and our readers are watching these columns as a guide to see where they are going to make their purchases.

SEABREEZE HAPPENINGS.

Items of Interest from the Peninsula —Coming and Going of Well Known People.

The Ladies Sewing Circle met with Mrs. H. S. Morrison Wednesday afternoon, in regular session. There was quite a lengthy business meeting. The chairman of the committee on constitution and by laws submitted a draft of the Daytona L. S. C., which with certain omissions and modifications was adopted by sections. Also the question of presents for the Sunday school children was discussed, and Mrs. Fannie Blanchard offer to buy the presents in New York was accepted.

Mrs. Mary Rahe and Mrs. E. M. Mc-Culloch of Atlanta and Marietta, Ga., have arrived at Dixie Lodge. They have been winter sojourners here for several winters past, and have many friends among us.

A jolly party of hunters, consisting of Mayor Herrick, Don Martin, Guy Johnson, Harry Buckland, Peter Riverburg, Dr. Davenport and Mr. Flemsburg, sailed to Mosquito Lagoon Friday afternoon for three days' fishing and duck shooting. There will be a great slaughter of the innocents, no doubt, in Mosquito Lagoon, or at least that is the way the hunters run, on the return of the fierce and fearless hunters.

Col. C. C. Peel has been quite busy the past week, having employed a score of men to underbrush the 255-acre tract of land below Port Orange, recently purchased by the real estate firm of Baggett & Peel. He is on the spot most of the time to see that the work is done right.

Judge Stewart was registered at the Breakers Thursday.

The Pickerts This Week

The Pickerts Company, under the direction of Thomas Seamans, will hold the boards at the Opera House the entire week commencing this evening. The organization is complete with comedy, music and drama. There will be an entire change of the drama and specialties every night.

Arthur J. Ledoux, a well-known Jacksonville citizen, and a member of the insurance firm of H. C. Hare & Co., spent Friday and Saturday in Daytona on business.

SNEAK THIEVES AGAIN AT WORK

Enter the Room of John Bratt, and Carry off $7.50. Lively Chase Ensued.

Robbers are operating in Daytona, as evidenced by the fact that Saturday evening a thief entered the home of John Bratt on Palmetto Street and ransacked the house. The thief was looking for money, and he only carried off $7.50 which was in Mr. Bratt's trousers.

The intruder made some noise in his operations, which awoke Mr. Bratt only to see the during their bolting out of the door in a rapid flute.

Marshal Zuber is on the watch and if owners of premises will assist him in keeping their houses locked properly it will greatly aid in stopping this pilfering.

HOLIDA BUSINESS ALREADY GOOD.

Daytona Merchants Getting in Christmas Goods for the Trade.--Merchants Sanguine of Prospects.

Holiday buying is on in Daytona.

Daytona business circles anticipate the biggest holiday trade in their history this year.

Already preparations are being made to handle from 25 to 300 per cent more trade than in any previous year.

Importations are being doubled and merchants are trying to have rush orders for extra stock filled.

Many firms have already increased their force of employes.

The demands of shoppers for higher priced goods than heretofore indicate the prosperity the people are enjoying. Heretofore medium classes of goods sold best, but this year customers seem less hesitant to spend money, the cash buying freely and a better grade of stock being demanded. This clearly indicates a healthy market, sound financial conditions and a general feeling of security in financial circles.

There is but one demand in the Daytona business world today and that is "Larger facilities to handle the business."

Merchants in all lines of trade unite in predicting a record-breaking season.

People are already buying everything appropriate to the holiday season, not only useful articles, such as is the rule when money is not any too plentiful, but ornaments, jewelry, gems and articles for presents that would not go out of the shops unless the people generally were prosperous.

A representative of the Daily News interviewed several of the leading merchants in different lines of business this morning and they all report that the Christmas trade, at this time, was far ahead of last year.

A Pioneer Winter Visitor.

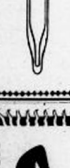
One of the pioneer winter visitors to Daytona, is Norton Reed, of Bowling Green, O., who has been coming to the East Coast for thirty-one seasons. Mr. Reed is an interesting talker and has many stories to relate of early days in this section. Before coming to Daytona, he put in his time at the Nelson House, in St. Augustine. He was there long before the building of the Ponce de Leon and Alcazar. It is exceedingly interesting to hear Mr. Reed speak of how the work progressed on these great structures. The climate of Daytona suits him, and he expects to spend the balance of his winters here. Mr. Reed is over eighty years old and is still hale and hearty.

Rock is being placed on Beach Street on the low places. With the exception of these holes the thoroughfare is in a fairly good condition.

A Poem for Today

NOTHING

By Harrison Millard



The sun comes up and the sun goes down,
And the day and night are the same as one;
The year grows green and the year grows brown,
And what is it all, when all is done?
Grains of sunder or shining sand,
Sliding into and out of the land.

And men go down in ships to the sea,
And a hundred ships are the same as one;
And backward and forward blows the breeze,
And what is it all, when all is done?
A tide with never a shore in sight,
Setting steadily on to the night.

The fisherman droppeth his net in the stream,
And a hundred streams are the same as one;
And a maiden dreameth her love-lit dream,
And what is it all, when all is done?
The net of the fisher the burden breaks,
And from her dreaming the dreamer wakes.

A Poem for Today

CHANGED

By Henry Wadsworth Longfellow

THIS was written by Longfellow after a visit to his native city of Portland, Me. The scene of the poem is a fine British mobile the town overlooking the ocean, a favorite resort of the poet in his youth.

FROM the outskirts of the town,
Where the old milestone stood,
Now a stranger, looking down
I behold the shadowy crown
Of the dark and haunted wood.

Is it changed or am I changed?
Ah, the oaks are fresh and green!
But the friends with whom I ranged
Through their thickets are estranged
By the years that intervene.

Bright as ever flows the sea,
Bright as ever shines the sun,
But, alas, they seem to me
Not the sun that used to be,
Not the tides that used to run.

Great Numbers of Mosquitoes.

Mr. Pickett, the manager and owner of the Pickett's Company, in speaking to a few people last evening at the Ivey House, said that he had harvested a piece of property in Miami about a year ago, and had even gone so far as to have the deeds drawn up. The property was in the hands of two real estate agents. The fellow who did not close the contemplated transaction threatened to take a fine against the property in the event that it was purchased. Mr. Pickett concluded his story by saying that it was well that he did not close with the great number of mosquitoes in that section. Otherwise, he is of the opinion that Miami is a growing town, and that property purchased there now is a good investment. He spoke of Dayton in favorable terms, and said that the town had made some great improvements since his last visit.

The Earliest Mummers.

Mumming is derived from the Danish mumme, a mask, disguise, and took its origin from the ancient Roman Saturnalia. In early English times it was the custom to indulge in burlesque sports after dinner on Christmas day when masked performers, called mummers, would disport before the assembled guests. This custom is still kept up in some parts of England, specially in Northamptonshire, where the villagers go about during the Christmas holidays from house to house, presenting several ridiculous characters in their mock play.

Hon. C. A. Carson, through the influence of Florida's delegation in Congress, has succeeded in getting an appropriation of five thousand dollars to fight the water hyacinth pest in the Kissimmee river. The dredge boat Kissimmee, Capt. J. P. Sharp, will have charge of the work, and operations will be begun in a few weeks. This will be welcome news to the steamboat men, as the water hyacinths are getting to be a serious impediment to navigation down the river.

Mr. and Mrs. A. F. Rutherford with their two sons and daughter, of Toledo, O., are enjoying their stay at The Austin. Mr. Rutherford is today celebrating his 74th birthday and his friends are congratulating him on his hale and hearty appearance. This morning Mr. Rutherford showed a Daily News representative several scenes taken at his club house, among them being a picture in which were Ex-President Harrison, Ex-Governor Foster, of Ohio, and Rear Admiral "Bobby" Evans, and Mr. Rutherford himself. These distinguished men spend several weeks each spring at this famous resort.

The Christmas Spirit.

The gift generously given is twice given.

Don't give the "man of the house" a set of lace curtains. He won't appreciate them.

Don't give "mother" a parlor couch or an upright piano, if she seldom sits in the parlor. Study her tastes and her needs, then select her gift.

A man offers a profound taxpayer the silver match case Christmas gift. Why this protest, the norn may understand.

There is a multiplicity of baskets in the shops, the prices range from ten cents to as many dollars. A basket, home-trimmed, with a clear to pleasing the particular person that is to use it, makes a simple, though inexpensive present.

An ostrich plume would delight the heart of the young woman, should Santa Claus favor her with one.

Boxes made especially for Christmas gifts are sold in the shops. Some of them are in burnt wood, but the commoner ones are those of parquet, prettily adorned with a holly design.

Holly ribbon, which may be bought very reasonably, is another detail that gives distinction to one's Christmas gift.

THE GRUBER-MORRIS HARDWARE COMPANY INC.

Great Numbers of Mosquitoes.

Mr. Pickert, the manager and owner of the Pickerts Company, in speaking to a few people last evening at the Troy House, said that he had bargained for a piece of property in Miami about a year ago, and had even gone so far as to have the deeds drawn up. The property was in the hands of two real estate agents. The fellow who did not steer the contemplated transaction threatened to take a lien against the property in the event that it was purchased. Mr. Pickerts concluded his story by saying that it was well that he did not buy owing to the great number of mosquitoes in that section. Otherwise, he is of the opinion that Miami is a growing town, and that property purchased there now is a good investment. He spoke of Daytona in forcible terms, and said that the town had made some great improvements since his last visit.

The Earliest Mummers.

Mumming is derived from the Danish mumme, a mask, disguise, and took its origin from the ancient Roman Saturnalia. In early English times it was the custom to indulge in burlesque sports after dinner on Christmas day, when masked performers, called mummers, would disport before the assembled guests. This custom is still kept up in some parts of England, specially in Northamptonshire, where the villagers go about during the Christmas holidays from house to house, personating several ridiculous characters in their mock play.

Hon. C. A. Carson, through the influence of Florida's delegation in Congress, has succeeded in getting an appropriation of five thousand dollars to fight the water hyacinth pest in the Kiesimmee river. The dredge boat Kissimmee, Capt. J. P. Sharp, will have charge of the work, and operations will be begun in a few weeks. This will be welcome news to the steamboat men, as the water hyacinths are getting to be a serious impediment to navigation down the river.

Mr. and Mrs. A. F. Rutherford with their two sons and daughter, of Toledo, O., are enjoying their stay at The Austin. Mr. Rutherford is today celebrating his 74th birthday and his friends are congratulating him on his hale and hearty appearance. This morning Mr. Rutherford showed a Daily News representative several scenes taken at his club house, among them being a picture in which were Ex-President Cleveland, Ex-Governor Foster, of Ohio, and Rear Admiral "Bobby" Evans, and Mr. Rutherford himself. These distinguished men spend several weeks each spring at this famous resort.

The Christmas Spirit.

The gift generously given is twice given.

Don't give the "man of the house" a set of lace curtains. He won't appreciate them.

Don't give "mother" a parlor couch or an upright piano, if she seldom sits in the parlor. Study her tastes and her needs, then select her gift.

A man offers a protest against the silver match case Christmas gift. Why this protest, the men may understand.

There is a multiplicity of baskets in the shops, the prices range from ten cents to as many dollars. A basket, home-trimmed, with a view to pleasing the particular person that is to use it, makes a simple, though inexpensive present.

An ostrich plume would delight the heart of the young woman, should Santa Claus favor her with one.

Boxes made especially for Christmas gifts are sold in the shops. Some of them are in burnt wood, but the commonest ones are those of leatheret, prettily adorned with a holly design.

Holly ribbon, which may be bought very reasonably, is another detail that gives distinction to one's Christmas gift.

Pathetic, Pungent, Pointed and Philosophical People's Peculiarities Pleasantly and Practically Portrayed

ALL ALONG THE EAST COAST . . .

Peter B. Bogart and family, have arrived from Milwaukee and are located here for the season.

The exodus this afternoon from here was quite heavy. Monday is usually moving day with the tourists.

W. Nash, a member of the firm of C. Nash & Son, left this afternoon for Melbourne, where he will install a hot air furnace in a cottage there.

Percy Rodgers has resigned his position as checker in the local freight house of the Florida East Coast Railway. Grant Mahon has succeeded him.

Palmer Waltham, the known Atlanta bicycle and smoker salesman is in the city visiting the trade. He is a brother of Bobby Waltham the great bicycle rider.

"Sweet Lavender" will be played by the Pickerts Company at the Opera House this evening. On Wednesday afternoon there will be a matinee at which "Cinderella" will be played.

"The Breezy Times," Saturday evening's attraction at the Opera House, was all that was expected. From the start, the clever members of the company kept the house in a roar of laughter. There were but few vacant seats.

The Orlando Water and Light Company has purchased the entire plant and business of the South Florida Gas Company at Orlando, and will assume the management on January 1st. This places the entire lighting system of that city in the hands of one company.

Within a few days Anthony's store on South Beach Street, will be one of the most attractive places in the city. The new plate glass windows, which are large, have been placed in position. Other fixtures for the store which will still further improve the establishment will shortly arrive.

A. F. Lovering and son, of Tampa, publishers of the Sunday Globe, announce that on January 1st, they will commence the publication of the Daily Globe. The new paper will be printed in both English and Spanish languages, and will be the only paper of its kind in the country. The Globe will have a full telegraphic service.

W. H. Arno, the well known house moving contractor with headquarters at Jacksonville, left this morning for his home, after spending a few days here. Mr. Arno has the contract to move the Case residence at the corner of Volusia avenue and Beach street. He has found it impossible to be here, but he has placed a competent man in charge of the work.

SMITH & THOMAS, "We Sell The Earth."

Roland Hardy, of St. Augustine, is in the city, and will remain here until Wednesday in the employ of the head office of the express company.

Among the East Coast Railway officials passing through here this afternoon enroute to points South were, Roadmaster O'Brien, Trainmaster McVeigh and Supervisor Moore.

J. M. Taylor, of St. Augustine, passed through here today en route from St. Augustine. He has accepted a position with the East Coast Lumber and Supply Company at Eau Gallie.

T. L. Gage, of Atlantic City, who has rented the St. James, through Smith & Thomas, has arrived and will open at an early date. His family will arrive in a day or two, having stopped off at St. Augustine.

Violated the Light Ordinance.

Marshal Zuber is keeping his eyes open for offenders of the bicycle light ordinance. Saturday night two white parties were nabbed. This morning they were brought before Mayor Smith, in the City Court, and plead guilty to the charge. A small fine of $1 and costs was assessed in each case.

Big Rewards Offered.

Governor Napoleon B. Broward, in behalf of the State has offered a reward of $250 for the arrest and conviction of the late Deputy Sheriff E. E. Johns. The citizens of Fernandina are also interested in the case, and have authorized the statement that they will give $1,000. It is probable that still further sums will be offered.

A fair description of the man suspected is as follows:

An undecided blond complexion; 5feet 8 or 9 inches in height, weighing about 150 pounds has irregular front teeth, wears about a No. 6 shoe, is about 25 years of age, has a slight mustache, but no beard.

....Wanted....
1,000 Reporters!

The Daily News wants 1,000 reporters. No, this is not a joke. We really want them, and we won't be happy until we get them.

In other words, The Daily News wants every person, male and female, 18 years of age and over, in Daytona and its environs, to get on the staff of the paper. The Daily News wants every scrap of local news that is worth printing to appear in its columns. The best way to get it is to ask the people who know about the news to send it to the paper.

So if you know of anything that has happened, or is about to happen, tell the City Editor about it or write to him.

Let every man and woman, youth and maid in and around Daytona become a reporter The Daily News.

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and most easy between its source at Ponce Bay and its outlet at Mosquito Inlet. It is in latitude 29 seventy-four miles from St. Augustine and nine miles from the Atlantic ocean, and is acknowledged to be without a rival for beauty among the visitors of the South. Its site upon what is known as high hammock land that was evidently in future with a most rapid growth at majestic forest trees, and among those trees in the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all about the wide avenues that intersect the town are hardly five and sixty oaks and live-oaks, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-berried hollys, and many other varieties, while in more places the wild grape, the trumpet vine and the honeysuckle flash and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues last run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, and has a half mile of open, beautiful water shutting upon its eastern side, where the salt waves ebb and flow and about the arms which enfold the cradle, lodgerating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, shaded and shelled roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, over a floods on unrivalled course for long distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and certainly is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are wonderful. Daytona as famous for its cottages as for its beautiful river, trees and avenues, and they are adding yearly to its attractiveness.

And the least of those attractions is the assuring homes in the fresh, and ranking second only to health fulness and perfection of the water, the fact that its population is chiefly composed of cultivated and kindly people, accustomed to the refinements of home and social life. Among these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, electric works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Life Water Works and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 500 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock and sand, which assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the form of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Settlement or Goodall, Seabreeze and Silver Beach, which are property a part of the town and populated.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide firm and smooth, by many considered the finest in the world, and for safe bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona Beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona Ormond Beach is hard as asbestos, and as ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is hared for 300 feet and neither carriage wheel bicycle or pedestrian leaves any but a hardly visible imprint on the smooth and well-packed sand. It is not an common sight to see sail-rigged bicycles speeding with the velocity of the wind before a cliff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled joint-framed boulevard have been built, and the wheel and vehicles into direct touch with the finest and most enbroad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point of tide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf bathing. Here the infant as well as the aged and infirm of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula

lying between river and ocean is one of rare beauty, and is being rapidly improved, and there are many fine cottages and tropical foliage, gem pens, two ocean piers, bath pavilion and a fine casino.

A Remarkable Feature

at Daytona has been the yearly improvement in the style and value of the buildings and the better class erected for homes. Men of capital of the North and West have become awarded to its advantages for winter and summer, and valuable lots are being purchased and costly homes, beautiful in design and finish, are being erected, and beautiful homes, the abode of wealth and culture are multiplying.

Seabreeze (City Beautiful), and Goodall are settlements on the south side of the peninsula across the Hall River from Daytona.

At the foot of Ocean Boulevard Seabreeze, a pier reaches out four hundred feet into the sparkling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, bowfish, cavalle, whiting, drum sheepshead and many other varieties of edible fish. During the fall season the fishing here affords excellent sport, and it has been no uncommon occurrence for a thousand pounds of this ramsey fish in an afternoon's sport, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the various species that abound in the ocean are present in the river.

Hunting and fishing guns of approved guides and dogs may be had at reasonable prices.
